KENO RULES

1. Must be 21 years or older.
2. Keno Runners are available for your convenience. We cannot be held responsible if tickets are presented too late for the game or if the Runner is closed out of a game. Tickets carried by Runners are not valid wagers until accepted into the computer system. Runners are instructed not to wait for any tickets not ready for the current game. Please have your tickets ready for the current game so that you will not miss out on a big win!
3. \$1 ticket minimum.
4. Please check your tickets carefully to be certain that they are correct. Any errors not corrected after one game will be played as registered in the computer.
5. \$50,000 aggregate payout limit on each Keno game. If more than \$50,000 in wins occurs in one game, all wins of \$10,000 or more will be prorated and aggregated to \$50,000.

TAXES

The IRS requires that casinos report payoffs on net Keno winnings of \$1,500 or more, and that the casino be shown documentation verifying the recipient's social security number along with a second document providing identification. Non-resident aliens will have 30% withheld from their winnings. Everyone else will have 24% withheld.

MULTI-RACE KENO

1. You can play the same ticket from 2 – 999 consecutive games at one time. Just fill out the ticket as usual and mark the number of games you want to play in the NO. OF GAMES box, and present your ticket to a Keno Writer or Runner and pay for all games at one time. Any multiple races of 21 or more games must be collected within 365 days.
2. 1–20 games must collect winnings within 30 days.
3. The ticket cannot be changed or voided after it is entered into play. The player must wait until the ticket is done.
4. The IRS considers each multi-race ticket purchased for multiple “Keno games” as separate bets. All winnings from “one Keno game” shall be aggregated (“Way” bets...). The cost of each game is deducted from the aggregated win for that race, to determine the “Net \$1,500” taxable winnings.
5. 25¢ and 50¢ per game if you play 21 or more games, for a 25% or 50% of payout.

GAME LIMITS

- \$1 ticket minimum

FAQS

Q. Is my wager per number?

A. No, it is per game.

Q. What is a game?

A. A game is when 20 winning numbers are selected. Each game has a different Game Number. Keno is played with balls numbered 1 - 80. 20 balls are randomly selected per game.

Q. What is a ticket?

A. A ticket is what you fill out to show your wager and the spots you want to play. A ticket is given to the Keno Runner or Keno Writer to be entered into the electronic system. A computerized print out is provided back to you. This computerized copy will show what you wagered, the spots played and the beginning and ending Game Numbers. The Game Numbers will be indicated on the Keno Monitors as your game is being played. More than one game can be played on a Keno Ticket.

Q. How do I know if I won?

A. Compare the numbers on your ticket to the winning numbers being shown on the screen. Game Numbers should match as well. Find how many numbers you matched and then check the Keno Pay Table. On the Pay Table find the table that matches the total number of spots selected and wagered for that game.

If you prefer to gamble while your Keno Games are played, just ask the Keno Writer to check your ticket for you!

Q. How do I collect my winnings?

A. You can collect after your last game has been called. Bring your ticket to the Keno Counter, or Cage, or give it to your Keno Runner. Use the Kiosk to obtain a cash claim and/or replay the ticket using your winnings. You have 30 days to collect your winnings. If you played 21 games or more on a single ticket you have 365 days to collect.

Wins over \$350 must be collected at Keno Counter.

Q. How do I win \$50,000?

A. There are multiple ways to qualify for the big payout! Bet \$5 on an 8, 9, 10, 11 or 12 spot game, or a minimum \$2 bet on a 13, 14, or 15 spot game. See Payout Table to determine needed catch for your bet.

WAY TICKETS

A Way ticket is similar to a Straight ticket. However, they can cost less and give you more possibilities by enabling you to choose several number groups, without having to buy several tickets. Keno Way tickets consist of several bets. You can win any, or all of the bets in one game. This means that Way tickets have big payoff potential which is a major advantage of using them.

How to mark and play a Way ticket:

You can play two Straight 4 Spot tickets, with a minimum wager of \$1 per ticket. See example tickets ① & ②. Or you can play those two 4 Spots on one Way ticket. See example ticket ③.

- Create a Way ticket by placing an "X" on the spots you want. In example ③, a 4 Spot is chosen then circled. Then another 4 Spot is chosen and circled.
- In the box labeled "Number of Spots or Ways Played" you would enter a 2/4. Representing 2 (# of circled groups)/4 (number of Spots in each circle).
- Then add a wager.* Example ③ shows a 50¢ wager, shown as -.50.

Total cost for this 2/4 Way ticket is
 $2 \text{ groups} \times .50 = \1.00 . This meets the \$1 minimum but now you can win with both, or either group for the same \$1 wager!

*When wagering less than \$1 per group, the wager's percentage of the \$1 factors into the payout: .10 is 10%, .25 is 25%, .50 is 50%.

The numerous options provided by a Way Ticket allows you to also play the 2/4 Way ticket as an 8 Spot.

- Your two groups of 4 Spots can be used as an 8 Spot wager also. Shown on example ④ the note 1/8 represents an additional wager of 1 group/8 Spots.
- You then add the wager. The example for the 1/8 shows 1 group \times .50 = 50¢
- Add the 50¢ wager of the 1/8 Spots to the \$1 for the 2/4 Way grouping and your total wager is \$1.50. You now have three ways in which to win!

There are multiple ways to play Way tickets. Help is always available at our Keno Counter.
